

Celosia Castle

Celosia
"Castle Pink"

Colors:

Yellow, Pink, Scarlet, Yellow and Mix

Flower/ Garden Height:

12 to 16 inches, plum type

Characteristics:

Withstand summer heat and drought, beautifully colored plumes that provide bountiful color

Market Use:

Well branched plants work well in containers and landscape / garden

Cultural Recommendations:

Seedling tray: Use 288 holes or larger holes

Container Size: At least 4 inches pot

Germination: 8 to 10 days

Transplanting Stage: 20 to 30 days after sowing

Days to Flower from Sowing: 60 to 70 days

Temperature: 21 to 24°C

ph Level: 6.0 to 6.6

Notes:

- Dry is best for general watering guidelines, but avoid excessively dry conditions in the seedling stage.
- Seedling vigor has been shown to be fairly sensitive into seedling tray size. Seedling tray smaller than 288 holes can stunt or lengthen the transplanting time.
